People

- Architects: Rubin & Rotman Associates, Montreal, QC
- General Contractor: Pomerleau, Quebec City, QC
- Engineers: Pasquin St-Jean & Associés, Montreal, QC

Products

- Murox High-Performance Building Systems manufactured 25,400 square feet of load-bearing wall panels.
- The two exterior wall panel finish are roll-formed Stelcolour 8000 + Series™ steel sheet painted Putnam Ivory. Steel sheet basis is a proven formulation of advanced polyester resins with added silicone for enhanced durability and color retention.
- The two other walls exterior finish is a shop installed EIFS finish consisting of 1-1/2 in. H. D. polystyrene insulation, cement polymer and 100% acrylic finish, with color prime treatment to prevent UV deterioration of bright colors. Vertical and horizontal reveals of contrasting colors were also used. All proven in applications over the past 35 years.
- Canam Steel fabricated 173 tons of joists, trusses and structural steel as well as 71,000 square feet of steel deck.

Highlights

This project features a one-hour UL® rated fire resistant Murox walls on two walls, that were entirely shop fabricated.

This project was delivered in four weeks of the customer's approval of the engineering drawings, and erection was completed in 12 working days.
