

CANAM

Customized Solutions and Service

New customized solution: Canam Welded Wide-Flange (WWF) Shapes

www.canam.ws/wwf

- Quicker delivery times, especially during peak construction periods
- Optimal shapes customized for each of your projects
- Excellent and flexible customer service, from cost estimation to delivery
- Support at the design stage

Contact your nearest Canam sales office to find out how Canam welded wide-flange (WWF) shapes can be used as beams, columns or overhead crane rails.

Technical enquiries should be emailed to:
wwf@canam.ws

Canam Canada has added welded wide-flange (WWF) shapes to its line of products:

- joists
- steel deck
- joist girders
- purlins and girts
