## People

- Architects: Stendel + Reich, architects
- General Contractor: Pomerleau, Quebec City, QC
- Foundation Engineers: Levac Robichaud Leclerc Associates Ltd.

## Products

- Murox High-Performance Building Systems manufactured 86,000 square feet of load-bearing wall panels.
- The exterior wall panel finish is roll-formed Stelcolour 8000 + Series™ steel sheet painted Bone White. Steel sheet basis is a proven formulation of advanced polyester resins with added silicone for enhanced durability and color retention.
- Insulated doors and aluminum-framed thermal windows were plant-installed.
- Canam Steel fabricated 809 tons of joists, joist-girders and structural steel as well as 280,000 square feet of steel deck.

## Highlights

This project features a conventional steel-framed design and required 40-foot high wall panels, 46 overhead door frames, and two 300-foot lengths of Murox canopy.

This project was delivered in four weeks of the customer's approval of the engineering drawings, and erection was completed in seven weeks.
